Fig 3

A schematic diagram of a vacuum tube diode. At the top, a horizontal line represents the anode, labeled '6' and '+V'. Below it is a circular region representing the vacuum, labeled '5'. Inside this circle is a smaller circle representing the cathode, labeled '2'. The cathode is divided into two horizontal sections: the top section is white and labeled 'e', and the bottom section is black and labeled '5'. A curved arrow labeled '1' points from the top of the cathode towards the anode. Another curved arrow labeled '3' points from the bottom of the cathode towards the anode. At the bottom of the diagram is a battery symbol labeled '7'.
